Posetron™

# Paypoint UN

**2024 Ver.**

PayPoint UN is an innovative unattended payment terminal that can assist you in providing a great self-service experience. It’s simple to integrate it into other vending machines and external devices. PayPoint UN's excellent performance, dependability, multiple configurations, and interfaces open up endless possibilities.

### Excellent Performance

Quad-Core Cortex A53 Processor

### Multiple Configurations

For Multi-Scenarios

### Unattended Payment

Premium Customer Experience

Posetron™

# Interfaces and Configurations

PayPoint UN is equipped with multiple superior interfaces and configurations that allow for endless possibilities.

- Charging station
- SMART Mini-ECR
- Unattended with ports
- Protection covers
- Branded lanyards
- Screen protectors

Posetron™

# Operate
# With Gloves

High-sensitivity touch panel ensures that users can operate with gloves even at low temperatures.

# Weather-Resistant
# Material

UN20 uses a weather-resistant material that prevents the surface from fading ever after 5 years of exposure to sunlight.

Posetron™

# Adaptive Brightness

The proximity sensor and light sensor of PayPoint UN wake the terminal while detecting the change of ambient light and the presence of nearby users without any physical contact. It will optimize the power consumption to save energy and protect the environment.

Posetron™

# Scenarios

Android system makes everything easy, intuitive and securer. Customers can run multiple applications and provide different services on the Cube Pro, which is powered by Android 10.x.

**Self-service shopping**

**Laundromat**

**Vending machines**

**Gas Station**
